April 2017

More to see than just television

Limited edition model Planea UHD twin R

More details, more contrast, more features: The successful Planea product family from Metz welcomes a new member. With the new special addition, Metz is now offering a UHD TV that, thanks to HDR and further highlights, makes viewing an even more intense experience.

The Metz Planea family continues to grow and it now also includes the limited edition Planea UHD twin R in 55-inch, 49-inch and 43-inch screen sizes. Compared to the high-quality Planea product family that has already successfully established itself on the market, this TV is even better equipped and thus provides an even more intense viewing experience. Featuring the latest UHD resolution and innovative HDR (high dynamic range) functionality, the Planea UHD twin R now has a sharper and more detailed display than ever before. HDR ensures exceptionally high contrast and a broad spectrum of colours. This makes film scenes appear extraordinarily natural and much more detail is visible in particularly light or dark areas.

The Planea UHD twin R also features an integrated digital recorder with 1 terabyte capacity: enough to record around 200 hours of HD-quality television. What's more, the Planea UHD twin R also comes with a twin multi-tuner (2x DVB-C/T2/S2) and is thus equipped for all current types of digital reception technology – including DVB-T2 HD. The Planea UHD twin R is complemented by the Metz operating system for maximum user-friendliness.

A slimline soundbar with 6 high-performance front-facing speakers rounds off the Planea UHD twin R. The MetzSoundPro technology with a sealed 2-way system and bass reflex channel ensures an impressively full, clean sound with brilliant treble and powerful bass tones.

The elegant design of the Planea UHD twin R will impress with its exclusive aluminium surround, and a rotating table stand adds the final touch to its tasteful appearance. A high-quality RM19 remote control made in aluminium for intuitive and convenient operation completes the Planea UHD twin R.

The limited edition model is available in 55, 49 and 43-inch screen sizes.
